3. Quality Checklist

Before submitting, check that:

- ☐ The document identifies the team and covers its work from the beginning of the project through the Stage 1 deadline.
- ☐ Dated entries explain specific tasks, responsible members, and actual outcomes.
- ☐ Entries include useful learning, unresolved issues, and actionable next steps where relevant.
- ☐ Meeting summaries identify attendees, key decisions, and follow-up responsibilities and deadlines.
- ☐ Readable, labelled evidence supports important progress and contribution claims.
- ☐ All significant project-related AI use is documented, including important interactions, verification, decisions, and outcomes.
- ☐ The contribution table includes every member's name, student ID, supported score, and specific contributions.
- ☐ Dates, progress claims, and responsibilities are consistent with the team's actual work and other submissions.
- ☐ The teacher can understand and assess the records without following external links.
- ☐ All members have reviewed the single Word or PDF document, and it is submitted without compression.

1. All its work identified up until the deadline
2. Each recorded and explained
3. All the entries included the relevant information.
4. All documented in correlation to the meeting
5. All relevant information filled
6. Everything that is done with AI is recorded
