3. Quality Checklist

Before submitting, each student should check that:

- ☐ My name, student ID, team, and reporting period are clearly identified.
- ☐ My dated entries were maintained throughout Stage 1 and describe specific activities.
- ☐ My log covers both project contributions and course learning beyond my team's module.
- ☐ I distinguish my own work from the work of teammates and AI tools.
- ☐ Readable, captioned evidence sits beside or below the relevant entry, with no separate evidence section.
- ☐ My reflections explain specific learning, difficulties, decisions, or changes in understanding.
- ☐ My significant AI use includes relevant interactions, verification, judgment, and learning.
- ☐ The teacher can assess my personal claims without following external links or searching another document.
- ☐ My account is authentic, and I can explain the work and learning described.
- ☐ My complete log is included in the team's single, clearly organized Word or PDF submission.

Before submitting, the team should also check that:

- ☐ Every member's Stage 1 personal log is included in one Word or PDF document.
- ☐ A contents list identifies all members, and each person's log starts on a new page with their name, student ID, team, and reporting period.
- ☐ All logs cover the beginning of course learning and project work through October 24, with entries in chronological order.
- ☐ Formatting is consistent and readable while preserving each member's own writing and perspective.
- ☐ Evidence, including significant AI interactions and verification, appears beside or below the relevant entries.
- ☐ Shared activities are described consistently, with each member's individual contribution clearly distinguished.
- ☐ Each member has checked their own section, and any missing content or conflicting contribution claims have been addressed.
- ☐ The complete document opens correctly, requires no external links for assessment, and is submitted once as **TeamName_Stage1_PersonalLogs**, without com

1. All are listed in the document
2. All recorded
3. Yes, all as required
4. Each member uses their own AI and how they used it are different

5. The caption is readable
6. Each member's reflection contained specific learning difficulties, decisions, or changes in understanding
7. Yes, each member included all.
8. Yes, the teacher can
9. Yes, each member can clearly explain their work
10. Yes
11. Yes, it is all in one document

12. Yes

13. All actions are recorded in chronological order

14. All format are consisten

15. All AI evidence and usage are placed near the relevant entries

16. Yes, all are distinguished

17. Yes, any and all missing information are immediately addressed

18. Yes, the documents open correctly, require no external links and will be submitted with the correct name.
